COMPLICATION 1

Flaming Field

Place 3d6 1" fire hazard tokens at chokepoints on the map. Each token deals 1d6 damage.

Comp 1/30 - Craedicus - ©Voidspiral 2023-11-17

COMPLICATION 2

Acid Pits

Roll 3d6. Place that many acid hazard tokens on the map. They must be 2" apart and no closer than 3" to the edge. The acid spreads, causing these tokens affect an additional 1" around them on the same level and below. Each acid token deals 1d4 damage.

Comp 2/30 - Craedicus - ©Voidspiral 2023-11-17

COMPLICATION 3

Ethereal Walls

Place 2d6 wall tokens 3" apart and from the edge. Extend each of these tokens 1d10 in a random direction. Models that fly, phase, or teleport cannot move through these walls, but other models can. The walls block line of sight for all attacks. Any model that stops with its base touching the wall takes 1d10 damage.

Comp 3/30 - Craedicus - ©Voidspiral 2023-11-17

COMPLICATION 4

Soul Wells

Place 1d6 Soul Well tokens on the battlefield. They cannot be any closer than 6" to each other and no closer than 3" to the edge of the battlefield. Whenever a model stops within 1" of a font, remove that font and heal the model 1d12.

Comp 4/30 - Craedicus - ©Voidspiral 2023-11-17

COMPLICATION 5

Summoning Foci

Prepare 4 other models and set them aside. Place 2 summoning circles on the battlefield, 6" apart and 3" from the edge. The first time any model moves onto that summoning circle, remove it and roll 1d4 to randomly select one of the set aside models. That model joins the battle on the side of the one who summoned it. Place it anywhere within 3 inches of the summoning model.

Comp 5/30 - Craedicus - ©Voidspiral 2023-11-17

COMPLICATION 6

Treasure

Roll 1d8 and place that many treasure tokens on the battlefield. They cannot be any closer than 6" to each other and no closer than 3" to the edge of the battlefield. The battle objective is now worth 3 victory points, while each piece of treasure is worth 2. Treasure tokens are picked up and moved as [Items](#actions). The force with the highest victory points at the end of the game wins.

Comp 6/30 - Craedicus - ©Voidspiral 2023-11-17

COMPLICATION 7

Mimics

As with Treasure, but each piece of treasure is worth 3 victory points, but has a 50% chance to be a mimic when a model attempts to pick it up. If it is, replace it with a neutral aggressive mimic model on its own initiative and turn. Mimics are not objective tokens and do not grant victory points.

Comp 7/30 - Craedicus - ©Voidspiral 2023-11-17

COMPLICATION 8

Winds of Acheron

At the beginning of each turn, roll a die to determine the direction of the wind. Then move all models without a wall between them and the wind direction 1" in the direction of the wind.

Comp 8/30 - Craedicus - ©Voidspiral 2023-11-17

COMPLICATION 9

Flamesleet

At the end of every activation, if the model is not adjacent to a wall or underneath an overhang, it takes damage from the rain of magma. If it's next to an obstacle, it takes 1d4 damage. If it's not, it takes 1d8.

Comp 9/30 - Craedicus - ©Voidspiral 2023-11-17

COMPLICATION 10

Bloodfog

Whenever a model takes damage, double the damage. At the end of each activation, the activated model heals 1d6. Attacks and powers cannot target models further away than 5".

Comp 10/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 11

Grasping Terrain

After any model moves, roll 1d4. It then moves in the direction of the d4, starting from forward and going clockwise in perpendicular directions. It moves 1d6 inches in that direction. If it runs into a model, it stops. If it runs into an obstacle, it is moved past the obstacle. If it runs into a wall, it is moved to the top of the wall.

Comp 11/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 12

Wild Beasts

Roll 1d3 and select that many beast models. Place these beasts anywhere on the battlefield. They enter play as neutral aggressive models with a side and turn of their own.

Comp 12/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 13

Toroid Map

Moving off the edge of the map returns the model to the opposite side of the map, the same distance from perpendicular edges as when it left.

Comp 13/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 14

Live Clay

Any model can spend an action to move itself and an objective, obstacle, wall, or hazard 1" in any direction. If the object is larger than 2" on a side, it rotates in the direction pushed instead of the entire object moving.

Comp 14/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 15

Ashstorm

Attacks and powers cannot target models further away than 3".

Comp 15/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 16

Torrent of Raging Souls

At the beginning of each turn, roll 1d6. 1 is Power Attack, 2 is Speed Attack, 3 is Magic Attack, 4 is Power Defense, 5 is Speed Defense, and 6 is Magic Defense. For that turn, all matching rolls matching get +1d12 and takes 1 damage.

Comp 16/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 17

Torpor Haze

Whenever a model takes damage, half the damage. Whenever a model activates, it takes 1 damage. Attacks and powers cannot target models further away than 5".

Comp 17/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 18

Abhorrent Plague

At the beginning of the battle, randomly select 1 model on the battlefield. It becomes infected as the initial carrier. Whenever an infected model is closer than 1" to another model, the other model is infected as well. On each activation, infected models take 1d10 damage.

Comp 18/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 19

Death Engine

Roll 1d4 and determine an edge of the map. Roll 1d6 to determine a distance from the first edge. Roll 1d8 to determine a distance from the edge to the left. At this point, place a Death Engine token. Whenever a model comes within 1" of the Death Engine, it can choose to either retain control of it like an objective token, or use it as an action. If it attempts to use it, number all the models on the field. Roll 1d20. Remove that number of randomly determined models from the battlefield. Reroll any duplicates.

Comp 19/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 20

Betrayal

At the beginning of turn 2, roll a d20 for every model on the field. The model with the lowest roll betrays its own and turns to the other side. Its original side cannot attack it until it performs either a power or an attack action. It is now on a different side from the heroes and enemies.

Comp 20/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 21

Hellthorn Field

All Speed Attacks get +1d8 to hit.

Comp 21/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 22

Field of Rage

All Power Attacks get +1d8 damage.

Comp 22/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 23

Sparks of Mana

All Magic Attacks and Powers have their range doubled. If a Magic Attack or Power has no range, it gains range 2".

Comp 23/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 24

Forest of Swords

Select 5 different items and find appropriate tokens for each. Place each token on the battlefield, separated from each other and the edge by 6". Whenever a model moves onto that token, they can spend an action to pick up the item. If they do, they gain access to that item for the duration of the battle.

Comp 24/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 25

Enemy Reinforcements

Set aside extra enemy models or units totaling 25% of the enemy's XP budget. Roll for a random deployment position. At the beginning of turn 2, there's a 50% chance they appear at that deployment. If not, they appear at the beginning of turn 3.

Comp 25/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 26

Hero Reinforcements

Set aside extra hero models or units totaling 25% of the heroes' XP budget. Roll for a random deployment position. At the beginning of turn 2, there's a 50% chance they appear at that deployment. If not, they appear at the beginning of turn 3.

Comp 26/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 27

Ammo Caches

Place 1d6 Ammo Cache tokens on the field, 6" from each other. Any model that stops within 1" immediately refreshes all limited-use actions. Then remove the Cache.

Comp 27/30 - Cradicus - ©Voidspiral 2023-11-17

COMPLICATION 28

Burning Brimstone

Being adjacent to any obstruction or wall is considered a 1d4 damage hazard.

Comp 28/30 - Eradicus - ©Voidspiral 2023-11-17

COMPLICATION 29

Abstract Metaphysical Plane

All powers gain 5 range and can target any model regardless of line of sight. All models can move through walls and obstacles as though they were not there, but must stop on a surface as normal.

Comp 29/30 - Eradicus - ©Voidspiral 2023-11-17

COMPLICATION 30

Power Crystals

Take a set of 6 polyhedral dice from d4 to d20. Place them on the battlefield 6" apart and 3" from the edge. Each time a model moves within 1" of one of these power crystal tokens, they take it off the board and can use it for rolling any attack or defense. Once it's used, it is expended.

OBJECTIVE 1 Area Denial

Place 4 objective tokens in setup, 6" apart and 3" from the edge. Whoever scores the most objective points after 3 rounds wins the game. If there's a tie, play until the tie is resolved.

Obj 1/16 - Cradicus - ©Voidspiral 2023-11-17

OBJECTIVE 2 Invasion

Place 4 objective tokens in setup 6" apart and 3" from the edge. If the heroes have control 2 or more objectives by the end of round 3, they win.

Obj 2/16 - Cradicus - ©Voidspiral 2023-11-17

OBJECTIVE 3 Assassination

After models are placed, randomly select a single enemy model. The heroes win if that model dies. If that model is still alive at the end of round 3, the enemy wins. Enemy models within 6" of the assassination target will try to protect it from harm.

Obj 3/16 - Cradicus - ©Voidspiral 2023-11-17

OBJECTIVE 4 Heist

Place three treasure tokens within 3" of enemy models. If the heroes have control of 2 of the tokens by the end of round 3, they win. These tokens act as [items](#actions).

Obj 4/16 - Cradicus - ©Voidspiral 2023-11-17

OBJECTIVE 5 Deathmatch

The last force standing wins.

Obj 5/16 - Cradicus - ©Voidspiral 2023-11-17

OBJECTIVE 6 Tactical Retreat

All sides roll off with 1d20. The lowest must retreat across the side of the board they are furthest from. If half or more of their force makes it off the board in this way, they win. Otherwise, they lose. If the enemy forces are retreating, roll 1d6 for each unit each turn. On a roll of 3-6, the unit's top priority is to pursue the objective and flee.

Obj 6/16 - Cradicus - ©Voidspiral 2023-11-17

OBJECTIVE 7 First Blood

The side that deals damage first wins immediately.

Obj 7/16 - Cradicus - ©Voidspiral 2023-11-17

OBJECTIVE 8 Extermination

All enemy models must be destroyed before the end of turn 3. If the heroes fail to do so, they lose the battle.

Obj 8/16 - Cradicus - ©Voidspiral 2023-11-17

OBJECTIVE 9 Last Stand

All hero models must be alive at the end of turn 3. If any hero model dies, the heroes lose.

Obj 9/16 - Cradicus - ©Voidspiral 2023-11-17

OBJECTIVE 10 The Relic

Place an objective token in the middle of the battlefield. At the end of turn 3, whoever has the most victory points for controlling it wins the battle. It can be picked up and moved like an item. If one side moves it entirely off the edge of the battlefield, then that side wins.

Obj 10/16 - Crađicus - ©Voidspiral 2023-11-17

OBJECTIVE 11 Siege

Before the battle begins, the heroes move 2 pieces each of terrain to form a defensible area, then place their models in that area. If any enemy models are inside that area, move them outside. The battle then begins as normal. If there are any enemy models inside the defensive area at the end of turn 3, the heroes lose. If there are not, and at least one hero is inside the defensive area, the heroes win.

Obj 11/16 - Crađicus - ©Voidspiral 2023-11-17

OBJECTIVE 12 Line of Battle

This skirmish takes place in the context of a larger battle, raging on either side of the map. The heroes' objective is to push to the furthest side. If half or more of the hero models get within 6" of the target side, they win. If half or more of the enemy models get within 6" of the heroes' side, they win and the heroes lose. If either side loses more than half of their models, they lose immediately and the other side wins.

Obj 12/16 - Crađicus - ©Voidspiral 2023-11-17

OBJECTIVE 13 Waves

Divide the enemies into one group for each round of combat, and remove all but the first group. Deploy a new group to a new position at the beginning of each turn. If one or more heroes survive until the end of round 3, they win.

Obj 13/16 - Crađicus - ©Voidspiral 2023-11-17

OBJECTIVE 14 Vultures' Descent

Place 5 Provisions objective tokens within 6" of the center of the battlefield, at least 2" apart. At the end of turn 3, if the heroes control 3 or more Provisions, then they win.

Obj 14/16 - Crađicus - ©Voidspiral 2023-11-17

OBJECTIVE 15 Protection

Select or randomly pick a single hero model. If that model is alive at the end of turn 3, the heroes win. Otherwise they lose.

Obj 15/16 - Crađicus - ©Voidspiral 2023-11-17

OBJECTIVE 16 Capture the Flag

Place a Hero Base objective token within 1" of a hero model. Place an Enemy Base objective token within 1" of an enemy model. Place a Hero Flag item token on the Hero Base and an Enemy Flag item token on the Enemy Base. The first side to move their own flag and the opponent's flag to within 3" of their own base wins.
